PROFESSIONAL EXPERIENCE

ASP.NET Developer (Junior Developer)

Mozon Technology
July 2024 – Present
Jordan, Amman, Arjan

- Web Application Development: Built scalable applications with ASP.NET MVC and WebForms, WindowsForm focusing on secure and maintainable solutions.
- Feature Implementation: Developed features like user authentication, dynamic content management, and enhanced interfaces using HTML, CSS, JavaScript/jQuery, and DevExpress.
- Entity Framework & SQL: Managed data access with Entity Framework and SQL, optimizing queries and handling complex data requirements.
- Reporting & Big Data: Integrated SAP Crystal Reports for data visualization and gained experience processing large datasets.
- .NET Development: Created backend solutions in C# and VB.NET, implementing APIs and business logic.
- Team Collaboration & Training: Guided junior team members on ASP.NET, DevExpress, SQL, and best practices; actively contributed to code reviews and documentation.
- API: Designed and implemented RESTful APIs for managing and retrieving accounting-related lookup data, such as account types and categories, ensuring secure and efficient access for client applications.

Advanced Fitness and Nutrition Management Software (Graduation Project)

Al-Hussein Bin Talal University
February 2024 – June 2024
Jordan, Ma'an

- Developed a software solution integrating fitness and nutrition for overall well-being.
- Designed architecture for precise caloric monitoring and nutrient analysis.
- Created a platform for personalized dietary plans based on glycemic index and load.
- Enabled trainers to customize exercise routines tailored to individual needs.
- Used C#, Dart, Python, and Firebase to develop backend and advanced algorithms for analysis.

EDUCATION

Al-Hussein Bin Talal University (Bachelor's in Software Engineering)

February 2021 –September 2024
Jordan, Ma'an

- Grade: 74.36 (Good)

King Abdullah II Bin Al Hussein Comprehensive Secondary School (High school or equivalent)

September 2019 – February 2021
Jordan, Irbid

- Grade: 67.7

SKILLS

- Programming Languages: C++, Python, C#, Dart, VB.NET
- Web Development: ASP.NET MVC, WebForms, Entity Framework, DevExpress
- Desktop Applications: Windows Forms (C#)
- Database Management: SQL Server, Firebase, Big Data Handling
- Reporting Tools: SAP Crystal Reports
- Tools & Technologies: Git, GitHub, Postman
- Technical Skills: Strong analytical and troubleshooting skills; typing speed of 40 WPM
- Soft Skills: Effective communication, teamwork, and mentoring experience; adept at explaining complex technical concepts and contributing to project documentation
